

Vacuum / Pressure Pumps

Description

Cost effective, reliable pumps now smaller and lighter weight

- Reduce the risk of sample contamination. An air seal between the pump and cylinder provides oil-free and dust-free vacuum/pressure delivery.
- Compact design saves laboratory space.
- Vacuum/Pressure pumps feature a diaphragm for cleaner, quieter operation.

Applications

- Ideal addition to any busy laboratory that requires a vacuum and/or pressure source for various applications.
- Oil-free, dust-free delivery helps maintain a clean laboratory environment in which to produce reliable, reproducible data every time.
